

Building Safety Strategy Summary

Our approach:

Who is this for?

- All residents and homeowners living in high-rise residential buildings who are 16+

We'll also engage

- Fire and Rescue Services

Accessible communication

- Large print
- Audio files
- Sign language
- Easy read formats
- Translation services

How we'll consult

- Building Safety Panel
- Resident groups

Important contacts

- Building Safety Manager
- Scheme Coordinators
- Housing Officers

All year:

Statutory consultations and notifications

- By letter to the property address or made available on our websites to view

Person centered fire risk assessments

- Where we know someone's at greater risk from fire

Safety campaigns

- Through social media, emails, customer magazine or newsletter, website and posters

Our channels:

Noticeboards

- Safety campaigns
- Details of how to raise building safety concerns
- Details of how to make a building safety related complaint

- Letters
- Posters
- Leaflets

- Flyers
- Videos

- Fire Risk Assessments
- Your building contacts
- Building Fire Safety equipment checks
- Signposting for how to report important building safety incidents and risks

- Newsletters
- Magazine
- Emails
- Websites
- Social media

Every year:

Safety information

- What to do if there is a fire
- How to report issues
- How we are performing

Community consultation

- Community events
- Annual surveys

- Your building contacts
- How to get involved

- Customer visits
- Questionnaires

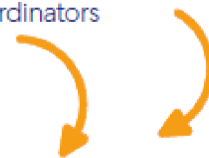

Ways to report concerns and suggestions:

- 0808 0164 0111
- buildingsafety@karbonhomes.co.uk
- www.karbonhomes.co.uk/contact
- www.bykercommunitytrust.org/contact
- Social media

In person to

- Housing Officers
- Scheme Coordinators

Suggestion boxes

Principal Accountable Person

They will record and make sure actions are taken

This is a summary of our Building Safety Resident Engagement Strategy. It is for all residents and homeowners living in high-rise residential buildings.
